

Timothy Witucki

Message from our CEO

Omada One is at the forefront of redefining the landscape of global staffing solutions. In an era of rapid business evolution, where traditional BPO staffing outsourcing and nearshore/offshore dedicated teams have limitations, we have emerged as a pioneering force, offering a truly unique and innovative staffing solution. By bridging the gap between these approaches, we have created a new breed of global staffing outsourcing firm that sets the bar high for management, customized recruitment, and quality assurance.

Strategically headquartered in Makati City, Manila, the bustling capital of the Philippines, Omada One is proud to attract the finest industry talent in the country. Our meticulous talent acquisition process ensures that we curate a team of experts who excel in their respective domains, establishing us as the go-to company for international clients seeking a professional and premium offshore staffing solution.

At Omada One, we provide a comprehensive suite of services, acting as a full-service capability partner for businesses worldwide. Our capabilities span diverse sectors, including Customer Experience Management, Accounting, Financial Services, Supply Chain Management, and more. By offering a wide range of staffing options, we enable organizations to tap into our vast talent pool and find the ideal candidates for their specific needs.

What truly sets us apart is our unwavering commitment to excellence. We believe in applying the highest standards to every aspect of our operations. From meticulous management practices to rigorous recruitment processes and uncompromising quality assurance measures, we leave no stone unturned in ensuring that our clients receive the best possible service.

While our roots are in the Philippines, our reach extends far beyond. With support staff strategically located in Spain, Czech Republic, England, Malaysia, Vietnam, and Australia, we have established a global presence that caters to the diverse needs of our clients. This extensive network enables us to provide unparalleled support, irrespective of time zones or geographical boundaries.

Omada One is not just about providing staffing solutions; we are about transforming possibilities. By leveraging our expertise and global resources, we empower businesses to expand their horizons, increase efficiency, deliver outstanding outcomes, and unlock their true potential.

"Thanks to Omada One, we are able to dedicate our time to what is important to us and our clients globally, knowing that our Accounting and Financial back-office support applications are being managed professionally. I recommend Omada One to fellow start-ups or enterprise companies globally looking for a reliable business partner to manage tax accounting and bookkeeping activities".

Davis Lusk, CPA & Founder, Managing Director (International Client)

With a focus on delivering an exceptional customer experience, Omada One is committed to providing clients with personalized premium solutions that meet their unique business requirements. **"Our mission is to help businesses achieve their operational and financial goals by providing them with the necessary tools and expertise they need to succeed."** We are excited to extend our services to new partners across Australia, North America, Asia Pacific and Europe to help them scale, grow and thrive.

Sean Mather (EVP, WW Operations) and I have been working together for the past fifteen years as entrepreneurs and are both truly passionate about developing high-performance teams & fostering a culture of accountability, focus, & ambition. Building a highly focused and immensely capable team focused on high touch and huge value has allowed Omada One to grow in times when others are still standing still.

We are focused on driving Omada One's geographic expansion and leading us toward a 5000-strong employee team in the next five years across multiple countries. We will continue to scale and oversee this rapid growth while developing new products and pursuing new market opportunities via targeted Asian and European micro contact center acquisitions in current strongholds and in low-cost labor regions further afield. **"I'm very excited and grateful to be part of Omada One at this critical stage of success, expanding the global footprint to Australian, Asia Pacific, Middle Eastern, North American, European markets, and beyond"**.

By complementing this with a team building practice that brings customers closer to the solution and includes customer resources with its own people we've found a proven recipe for success. **"The historical approach of Business Process Outsourcing (BPO) is changing, and it is companies like Omada One that are paving the way for closer and tighter business relationships across the globe."**

ABOUT OMADA ONE
